Organisational Structure and Roles

Document ID: ZSMC-GOV-002 Rev 0

Effective Date: 16-08-2026

To conduct rigorous, accessible, and independently minded research and to develop scientific and technological knowledge through reproducible investigation, engineering experimentation, computational research, and open intellectual inquiry.

This document establishes the organisational structure and allocation of responsibilities within The ZSMC Co. Directly inheriting the four principles from ZSMC-GOV-001

Rev 0:

- Evidence before prestige.
- Reproducibility before publicity.
- Intellectual contribution before title.
- Scientific honesty before institutional interest.

NOTE: The ZSMC Co. is an independent research initiative and as of effective date does not possess a legal status, or is an incorporated legal entity

Roles and Responsibilities

1. Founder / Authorized Head

The Founder (Srijal Dutta as per ZSMC-GOV-001 Rev 0) or any authorised head appointed to maintain institutional continuity holds control as the authorised secretary for The ZSMC Co. The person has final decision over all appointments, and other matters of the organisation, EXCEPT for controlling research directions outside of their fields/lead and maintains diligence, steering the Organisation in accordance with the founding charter.

2. Research > Researchers

Researchers work under The ZSMC Co. affiliation, and also publish different publications. Researchers, when onboarded are generally considered provisional for a time period, and hence do not receive a '@thezsmc.co' domain email, nor authorisation to use affiliation without special permission. After the provisional time period, said researchers may be re-reviewed for further finalising their status. This may also be fast-tracked in case of exceptional achievement.

3. Research > Research Projects

Research Projects are projects that are assigned to Researchers. Researchers must at all times be leading at least one project.

4. Research > Research Advisors

Research Advisors are considered senior, and help researchers with research-related topics, be it subject-matter or in general relating to gathering support. They may also help guide the main research direction and lead projects if they wish.

5. Administrative & Operative Functions

All Administrative and Operative Functions are handled on a case by case basis, and all roles under it cannot be definitively written.
